Gateway Program

The Gateway Program helps honors students convert academic success into professional success. Every semester, the College offers seminars in various areas of professional development and leadership.

Gateway 1-credit seminars do not fulfill honors requirements, but do provide students with critical skills to help them launch their careers, whether they plan to enter the workforce directly or pursue graduate work after college.

Gateway seminars are listed under HONORS 495 course numbers. There is no application and students may take more than one of the courses. Gateway course offerings may include:
• Computer Competency Certification
• Front Page
• Grant Writing for Scientists
• Grant Writing for the Arts
• Leadership for a Democratic Society
• Leadership in a Global Community
• Preparing for Graduate School
• Professional Networking and Leadership
• Research Gets Real: Principles and Practices of Community Engaged Research
